

There is one empty can on the table.
Please place it on the tray.

PhysCaP

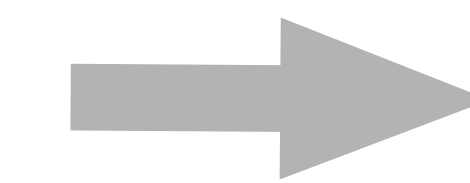

The red can is empty.
I'll place the empty can on the tray.

Planner Agent

Listing Candidates

- Weigh the blue can
- Weigh the green can with straw
- Weigh the black can
- Weigh the red can with straw

Prioritizer Agent

Prioritizing Candidates

1. is new
2. has a straw
3. is new
4. has a straw

Selected

- 1.
- 2.
- 3.
- 4.

Coding Agent

Control Primitives

```
goto_pose()  
open_gripper()  
close_gripper()
```

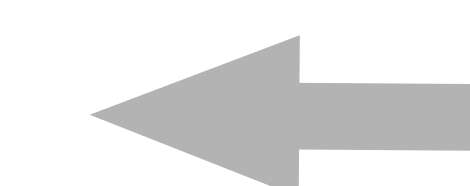

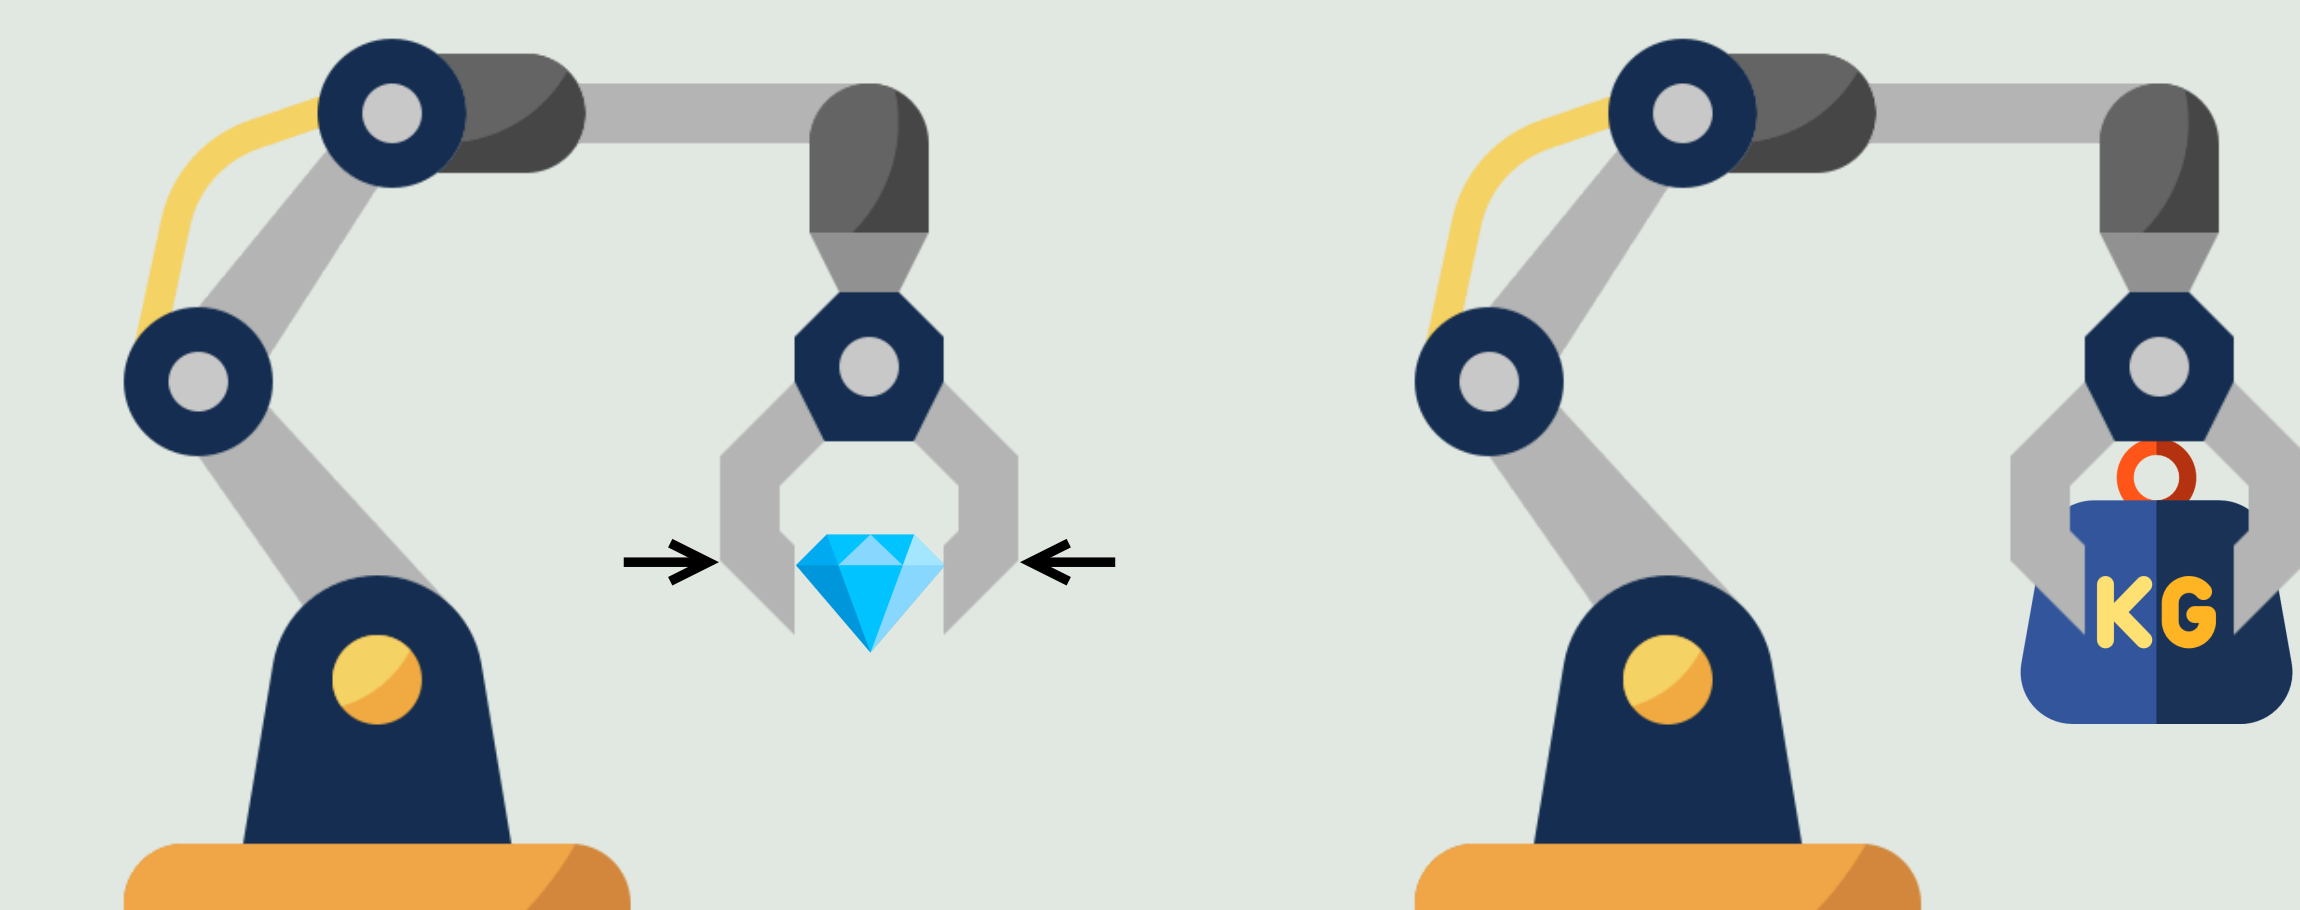

Low-level perception

```
get_object_pose()
```

PhysX

(Physical Property Extraction Module)

get_stiffness() **get_mass()**

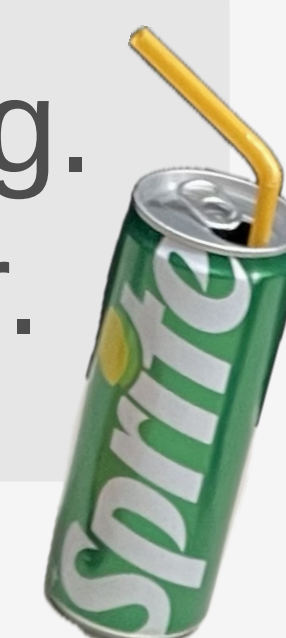

Plan Execution

```
can_id = "green can middle-left"  
pos, quat = get_object_pose(can_id)  
goto_pose(pos, quat)  
mass = get_mass(can_id)  
print(f"Mass: {mass} kg")
```

Green can weighs 389g.
Not empty, try another.

Info not sufficient
Going back to planning

Red can weighs 19g.
Empty can found!

Sufficient Info
